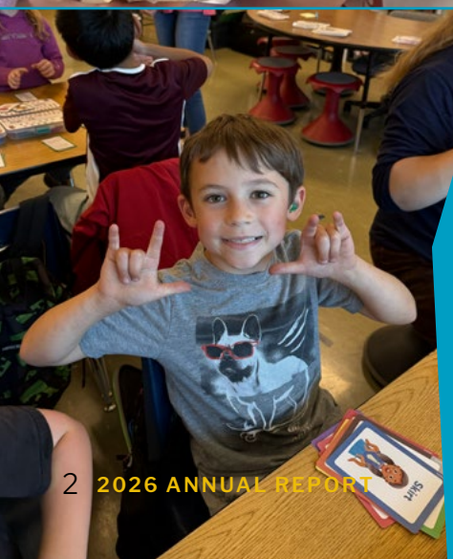
Supporting Schools. Investing in Our Future.

2026 Annual Report

Corvallis Public Schools FOUNDATION



If the past year has taught us anything, it is the remarkable power of our community's support for public education.

You made a difference! During a year of significant challenges, your generosity had a real and tangible impact in our schools.

Because of you, last year we provided vital stability to more than 1,500 students navigating poverty. Your donations helped hundreds of families meet their students' basic needs. In partnership with the Corvallis School District, we leveraged private dollars to provide everything from food assistance and hygiene items, to gas cards and even housing support. **Your commitment made it possible for every student to arrive at school ready to learn.**

> **"The greatness of a community is most accurately measured by the compassionate actions of its members."**
> Coretta Scott King

Your contributions also funded record investments in enrichment programs and academic support. Donor dollars fueled everything from math tutoring, literacy intervention, and credit recovery programs, to investments in STEM, music, athletic facilities, and hands-on, real-world experiences. These opportunities inspire students and give them the tools they need to thrive.

Most importantly, your support sent a powerful message to our educators and students: that they matter, and we believe in them. **By investing in our public schools, you are investing in the future of our community.**

As we look to the year ahead, the need for flexible, community-driven support remains vital. We are deeply grateful for your partnership as we continue this important work together.

With your help, we know that the future is bright for Corvallis students.

Nina Erlich-Williams
Chair of the Board of Trustees

Angela Hibbard
Executive Director

OUR VISION is that all students— of every race, culture, socioeconomic and family status, language, ability, gender, gender identity, gender expression, or sexual orientation—graduate as engaged community members, ready to contribute to their fullest potential and navigate the world's complexities.

Grants & Impact in 2026

Thanks to the community's generosity, last year a **record-setting commitment** was made to support Corvallis schools. *Your support makes a difference!*

IMAGINE Grants

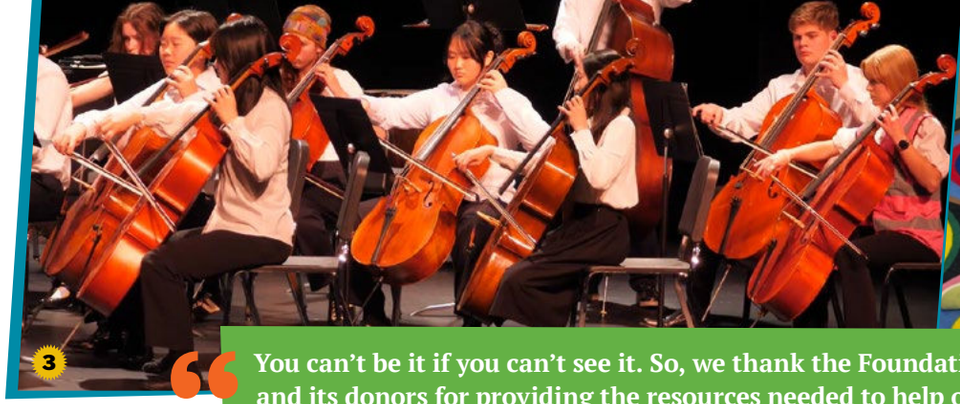
Learning comes to life through our **IMAGINE Grants.** They invest in educators' most creative initiatives: projects that expand learning, build community, develop academic skills, and equip students with real-world experiences that inspire success beyond the classroom.

Thanks to the generosity of our donors, last year we funded **37 of the 68 IMAGINE Grant applications**, investing a total of **$67,612** directly into our schools.



> **"You can't be it if you can't see it. So, we thank the Foundation and its donors for providing the resources needed to help our high school students discover careers in STEM and ways to connect with mentors and advisors."**
>
> **Danielle White,** *Corvallis High School*

$4,920 / Calm Breath, Wise Heart: Supporting student emotional regulation and resilience (Amara Schrager)

1 **$4,972 / Gecko Folklórico Cultural Dance Program** (Adriana Espinosa)

$4,517 / Staff Training for Children's Defense Fund's Freedom School Program (Caleea Kidder)

$4,180 / Secondary SAFE Workshops: Fostering the transition from middle to high school (Jennifer Davis)

$3,525 / Bike Safety for All: Adaptive bike equipment (Garth West)

$3,000 / Mobile Whiteboards for Building Thinking Skills (Alison Hintzman)

2 **$2,500 / Native Plant Learning Gardens** (Sky Richert-Lathum)

$2,500 / Equitable Physical Education Equipment (Nolan Bradley)

$2,500 / Learning Beyond Walls: Structured field trips for alternative-education students (Jacob Newman)

$2,500 / US Forest Service Collaboration: Specialized material to manufacture signs for National Forest ranger districts (Adam Kirsch)

3 **$2,400 / Cello for High School Orchestra:** Expanding equitable access to orchestra (Sarah Perkins)

$2,100 / Metal Canvas – Where Art Meets Industry: Professional-grade sandblasting equipment (Andrew McAteer)

$2,000 / Global Spartans Newcomer Integration Project (Karrie Woodruff)

$2,000 / Sones del Valle – Banda Mariachi de CHS: Expanding access to music (Jens Lovtang)

$2,000 / Pacific Islander Student Affinity Group (Nia Martin)

4 **$1,711 / A New Chick Inn:** Urban Farm & Construction Program collaboration (Eva Riedlecker-Wolfe)

$1,700 / Family Preparedness: Materials for families facing possible deportation (Sarah Devine)

$1,650 / LP Garden Rebuild: Improving access for mobility-challenged students (Joel Kropf)

$1,500 / Women in STEM, Career Exploration (Danielle White)

> **"Fund as many projects like this as possible! When students have ownership in planning and building projects like this, it really enhances their belonging and community connection."**
>
> **Keith Moses,** *Crescent Valley High School*

$1,500 / Social & Communication Skill-Building Group (Mindy Taylor)

$1,500 / Skills for Success: Real-world woodshop assignments in pre-vocational math class (Maya Suchaneck)

$1,200 / STEM Woodworking Project: Garden upgrade and skill-building (Joel Kropf)

$1,000 / Animal Adaptation Immersion Field Trips (Adriana Espinosa)

$1,000 / Regulation and Support for Student Behavior: Movement-based regulation tools to support student behavior (Bernadette Lastoria)

$1,000 / College Hill Student Cultural Heritage Festival (Jessica Moevao)

$1,000 / Open Gym for Everyone (Matt McDonough)

$1,000 / Project Classroom Library: High-interest books for high school students (Matthew King)

$900 / Willamette Heritage Center Kalapuya Course Field Trip (Maria Simmons)

5 **$869 / STEAM 3D Printer** (Jeremy Adams)

$800 / Indigenous People's Books (John Nelson)

$703 / OMSI Career Assembly (Shannon Schreier)

6 **$602 / Learning Through Signs:** Building Equity with ASL (Shayna Hicks)

$563 / **Cutting into Creativity:** Adaptive Equipment for Math, Equity, and Real-World Problem Solving (Emma Ramsey)

$500 / **Peer Math Tutoring at Linus Pauling** (Laura Munoz)

$500 / **Sensory Regulation Materials for Kinders** (Erin Cavagnaro)

$500 / **Expanding Access to Literature for Language Learners** (Sydney Arndorfer)

$300 / **Little Buddies Collaborative Art Project** (Keith Moses)

Fields for the Future

This year, we celebrated key milestones in the Fields for the Future initiative. Funded entirely by private donations, this multi-year, phased campaign is dedicated to investing in our high school athletic facilities and expanding equitable opportunities for all students.

The community gathered to celebrate the completion of significant enhancements to Corvallis High School's Hansen Stadium at Taylor Field, as well as field lighting for Crescent Valley's baseball and softball fields, and Corvallis High School's softball fields.

Together, these projects reflect a lasting commitment to removing barriers and enriching opportunities for Corvallis' youth, today and for years to come.

We extend our deepest gratitude to Tim and Allison Sissel (below) for their transformative gift, lighting the way for student opportunities today and for generations to come.

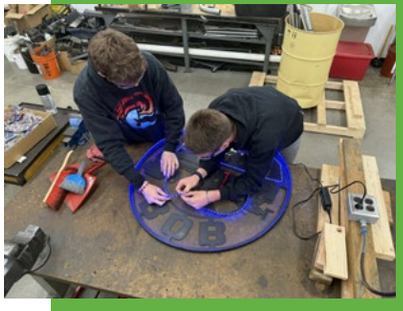
Grants in Action

A glimpse into a few of the many impactful staff and student-led projects from the past year.



Metal Canvas: Where Art Meets Industry

Investment in a professional sandblasting cabinet to complete the program's art-to-industry pipeline

> *You bought one machine, and it connected the whole line. Design, cut, blast, coat, light: students run every one of those steps here now, on work they keep or sell. A year ago the middle of that line did not exist here.*
>
> *The District builds the program and keeps it staffed. The Foundation closed the gap in the middle.We are grateful, and the shop runs better because you decided it should."*
>
> **Andy McAteer,** Crescent Valley High School Teacher

Sensory Regulation for Kinders

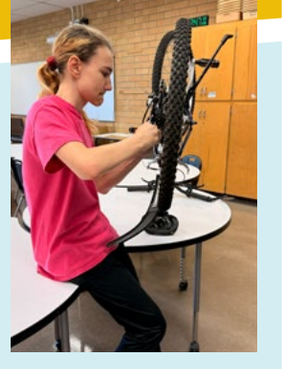
Materials that promote social emotional regulation and fine motor development for kindergarten students

> *Throughout this year the students have become much more socially and emotionally aware both in the classroom and around the school environment. Students are sharing more, communicating better, and being kind. This grant truly has helped create a classroom community that respects each other both culturally and emotionally."*
>
> **Erin Cavagnaro,** Lincoln Elementary Teacher

Little Buddies Ceramics

Bringing elementary art to life through a collaboration with high school ceramic students

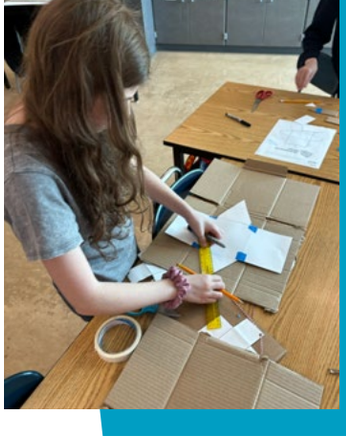
> *The joy and bonding from helping the younger students was really wonderful to observe... Thank you! These projects promote service learning, community connections, pride in learning, and life-long memories."*
>
> **Keith Moses,** Crescent Valley High School Teacher



Regulation and Support for Student Behavior

Hands-on, skill-building hub, helping students channel energy in constructive ways while developing real-world skills

> *The Foundation's support helped create spaces where students felt safe, capable, connected, and valued. These are supports that will continue benefiting students for years to come as the materials and programs transition with us to Corvallis Junior High."*
>
> **Bernadette Lastoria,** *Cheldelin Middle School Teacher*



Cutting into Creativity: Adaptive Equipment for Math, Equity, and Real-World Problem Solving

Adaptive chomp saws for inclusive building and design projects

> *This grant created foundational memories for my students and made project-based learning and abstract mathematical concepts accessible to a deeply impacted and wonderful population of learners who are often overlooked or underserved...Thank you for believing in these students and for investing in tools and experiences that affirm their worth, their potential, and their ability to succeed. Your generosity has made a lasting difference."*
>
> **Emma Ramsey,** Linus Pauling Middle School Teacher

OMSI Career Assembly

Hands-on exploration of weather and weather-related careers

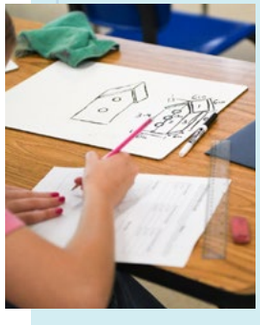
"The support that is provided through these grants is appreciated more than you know, and the experiences we get to share with students because of that support have a reach far beyond what I can even see in the classroom. When we can provide students with hands-on experiences and fully engage them in learning, we see the most sincere and meaningful growth."

Shannon Schreier, Mountain View Elementary Teacher

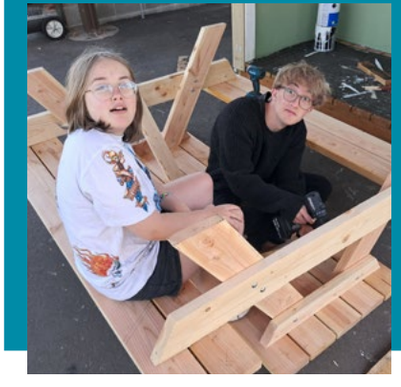
Skills for Success

Connecting functional math concepts to real-world woodshop projects

"This grant gave our students something that is hard to replicate in a traditional classroom, a real reason to learn. Building on the success of this initiative, we plan to expand the classroom business model into a community-facing operation. Students will continue building products, including birdhouses, cutting boards, and basic furniture items, and will have the opportunity to sell them directly to the community through a dedicated stand or sales event."



Maya Suchaneck, Corvallis High School Teacher



College Hill Picnic Table Project

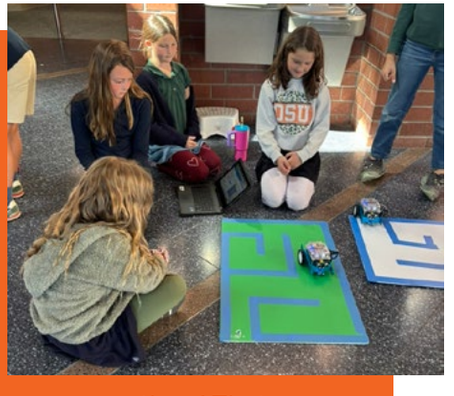
Building skills and a community gathering space

"This project was amazing and the patches of chaos were well worth it!"

Adlai Schneider, College Hill High School Student

STEM Outreach Club—Afterschool Programs

Materials for mBot unit at student-run afterschool STEM program



"From this YEA! Grant experience, I have learned how impactful the introduction of new resources can be for kids. I remember the first time mentioning that we were building these robots. All of the groups were really excited, and had so many questions! That enthusiasm and curiosity continued throughout our mBot unit."

Maya Dobson, Crescent Valley High School Student

Bike Safety for All

Adaptive Rifton Tricycle for Districtwide Bike Safety and Education

"It is my life's work and passion to help students of all ability levels access both school and play in ways that are meaningful to them, and I thank you so much for supporting that goal!"

Garth West, District-wide Special Education Physical Therapist

Congratulations to our 2026 Golden Apple winners

Since 1996, the Mario and Alma Pastega Golden Apple Awards have celebrated outstanding educators in the Corvallis School District with this prestigious honor.

YEA! Grants

Youth Empowerment and Action (YEA!) Grants empower students by investing in their ideas for improving their school community. By providing hands-on, real-world experience, these grants help students develop practical skills, build confidence, and grow as leaders.

$1,800 / Equitable Access to Robotics Competitions—Crescent Valley High School (Emmett Kane, Lydia Li, & Cres Merrill)

1 **$1,800 / Extended Coding Experience Through Robotics**—Corvallis High School (Oliver Kurth, Haley Washburn, & Mica Lohr)

2 **$1,250 / SAFE Culture Tours: Exploration of OSU Cultural Centers**—Cheldelin Middle School (Synleigh Pan, Henry Minyila, & Regina Challis)

3 **$1,000 / Asian Cultural Club: Lunchtime cultural events and leadership conference**—Crescent Valley High School (Natalie Young, Keira Lin, & Clarence Fernando)

$1,000 / Campus Restoration: Removing invasive species, and planting native shrubs—Crescent Valley High School (Emme Obermire, Zoe Montgomery, & Piper Thompson)

4 **$919 / Picnic Table Project: Building a community gathering space**—College Hill High School (Reverie Webb, Zak Ertel, & Elizabeth Price)

5 **$900 / College Hill Basketball Program**—College Hill High School (Emmanuel Montan-Baker, Owen Lee, & Jeidin Howard)

6 **$800 / STEM Outreach Club**—Multiple Schools (Maya Dobson & Emily Gu)

$800 / SAFE Cultural Week—Corvallis High School (Melanie Lee & Olivia Richardson)

$750 / Yearbook Class—College Hill High School (Amy Ibarra & Yasmin Ruiz)

$650 / Pride Empowerment & Community Event—Cheldelin Middle School (Addie Lodal)

7 **$360 / Mural Project**—Mountain View Elementary School (Hazel Berry, Kaidyn Washington, & Bennet Wong)

Congratulations to our 2026 Green Apple Award winner

Thanks to the Corvallis Green Fund, this year we presented the first-ever Green Apple Award to recognize and honor a sustainability champion in the Corvallis School District.

Charlyn Ellis
Corvallis High School

Community Support

Throughout the year, our community showed up with generosity and enthusiasm to support our schools.

Educator Grants: A back-to-school surprise

We kicked off the school year on a high note by surprising 18 lucky educators with a $250 grant to use for their classroom or program. Local businesses sponsored the grants to show our educators how much the community supports them.

We know that teachers put their heart and soul, and too often their own funds, into creating an enriching, educational experience for all students. These educator grants helped provide the resources they need to inspire and educate.

> **This was so amazing. It really made the energy feel so good. It was also great how you listed all the businesses before each grant because it matters who's really got public educators' backs. I know I'll support the businesses that support educators."**
>
> **Christa Schmeder,** Corvallis High School Teacher

Community Responds to Urgent Need

In the fall, cuts to SNAP benefits and other federal programs pushed many Corvallis students and their families from food insecurity to acute crisis. The community responded with care and generosity. Individuals, families, church groups, gyms, organizations, and businesses all responded to our call for support. **Hundreds of bags of food were distributed to families, $7K in grocery gift cards, and more than $10K in cash contributions were donated to support families through the crisis** and the holiday season when families often experience greater need.

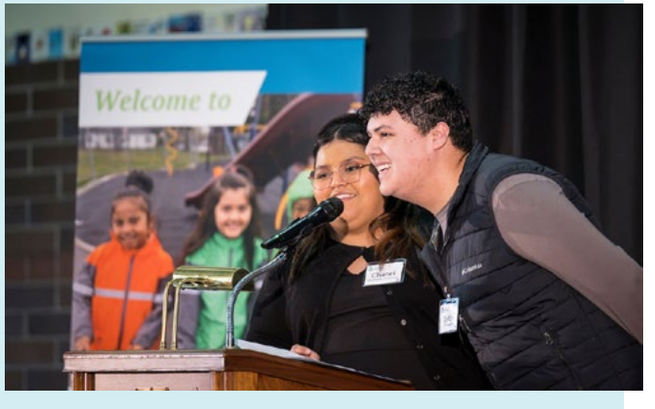
Hands Across Corvallis

Supporting Local Schools

Celebrating 10 years of Hands Across Corvallis

The community came together to celebrate our tenth annual Hands Across Corvallis. To mark the occasion, we set an ***ambitious but meaningful goal:*** **to raise $128,000 and bring our ten-year total to $1 Million.**

Thanks to our generous community we not only met, but exceeded, our goal! More than $1 Million dollars have been invested in student success thanks to this event.



We look forward to seeing you all at our next Hands Across Corvallis on **January 26, 2027.**

Save the Date!

Trivia Night Brings Community Together for Corvallis Schools

Our first-ever *Trivia Night: Education Edition* was a resounding success. **It was an entertaining evening of trivia, food, fun, and friendly competition—all in support of our enrichment grant programs.** Thanks to our participants, and generous sponsors, the event raised vital funds for our schools. We can't wait to host our next Trivia Night in 2027!

A Powerful Partnership

Following the school-consolidation decision, we knew we needed to support staff who would be impacted by assignments to a different building, classroom, or program. Our generous partners at the **Benton County School Credit Union stepped up to help fund Staff Resource Grants: $500 to eligible staff to cover expenses related to a change in assignment.** These grants were announced to staff in the spring, and will be available throughout the '26/'27 school year.

Above: *Benton County Schools Credit Union CEO, Amanda Held, and Corvallis Public Schools Foundation Executive Director, Angela Hibbard, forge partnership to support Corvallis educators.*

> **"Supporting local educators is central to who we are as a credit union, and we are proud to work with CPSF to provide resources that can make these transitions a little easier."**
>
> **Amanda Held**, CEO Benton County Schools Credit Union

BCSCU Your Public Employees' Credit Union

Corvallis Public Schools FOUNDATION

Cheers to Educators

At the end of a long school year, we partnered with the Benton County Historical Society to host Cheers to Educators—because our educators deserve being celebrated and pampered.

Held at The Corvallis Museum, **staff were treated to food and local drinks, entertainment, giveaways, fun activities, and a complimentary annual museum membership to enjoy the museum all year long.**

Throughout the summer, community members were invited to stop by the museum to leave a note of appreciation for educators, which were later displayed at the Corvallis School District's Back-to-School rally.

It was a powerful display of the community's support!

Hands-On Learning, Lasting Impact

How Middle Schoolers Built a Self-Sustaining Garden & STEM Project

When Linus Pauling Middle School teacher Joel Kropf applied for two IMAGINE Grants, he knew they would give students valuable hands-on learning opportunities. What he didn't anticipate was just how fully his students would embrace the projects, and how much they would accomplish together.

The grants, "LP Garden Rebuild" and "STEM Woodworking Project," became much more than their titles suggest. Students didn't simply rebuild a school garden or learn woodworking techniques. They took ownership of every step of the process, gaining experience in project management, design, construction, and long-term planning.

The garden itself was transformed into a more accessible and sustainable space. Students built three new raised garden beds, installed a drip irrigation system that automatically waters the garden throughout the summer, and redesigned the layout to improve access and allow for future ADA-accessible pathways. They also constructed a beautiful pergola to support grape vines, creating a space that will continue to grow for years to come.

The woodworking project extended those lessons even further. Students built 45 birdhouses using plans from the Cornell Lab of Ornithology customized for local bird species, 17 flower boxes, and three Adirondack chairs. Their work also laid the foundation for a program that can continue for years to come.

"Students are learning entrepreneurship skills as we market and sell our creations to help fund future classes doing these woodworking projects," Kropf shared. "The ultimate goal is to create a self-sustaining system where students are continually gaining skills and our local community and wildlife are benefiting from our creations."

The impact of these IMAGINE Grants reaches far beyond the finished projects. Students developed practical, real-world skills that aren't always found in a traditional classroom: collaboration, problem-solving, creativity, and entrepreneurship. Even more rewarding was seeing their enthusiasm throughout the process. They weren't just completing assignments; they were building something meaningful for their school and community while gaining confidence and skills they'll carry with them for years to come.

> **"The ultimate goal is to create a self-sustaining system where students are continually gaining skills..."**

- Zoe A. Silbernagel Endowed Fund, $28,530

Spartans Supporting Spartans

The CHS Class of '79 Spartan Fund was created to provide lasting support for enrichment programs that help Corvallis High School students find success in the classroom and beyond. The fund will support grants for STEM, art, music, athletics, college and career-readiness, and other student-centered programs.

Reflecting on her experience in Corvallis schools inspired Class of '79 alum, Marie Brown, to contribute to the fund. "The fantastic education I got from kindergarten through high school in the Corvallis school system was my launching pad for the life I live now." Other classmates are encouraged to contribute to the fund to create a lasting legacy for future Spartans.

Make a Lasting Difference: We are deeply grateful to our endowed fund and legacy donors, whose generosity ensures a lasting investment in our students. Contact us to learn how you can impact the future of Corvallis Schools with a gift that lasts for generations. 541-757-5857

What inspires you to support the Corvallis Public Schools Foundation?

"I want students to have the opportunities I had—access to musical instruments, quality instruction, and the joy of creative enrichment. That is why I have included the Corvallis Public Schools Foundation in my estate plans: to ensure a lasting legacy of support for Corvallis students."

"Teachers' dedication to excellence."

"I am a full supporter of public education!"

"Having always attended public schools, I hope this gift directly inspires someone to shoot for the stars and at least land on the moon."

"I believe in Corvallis public schools and the love of learning they instilled in me. My hope is that these funds can strengthen existing programs to provide an inspired beginning for future generations."

"Nothing is more important than a good education for our children."

"Corvallis is my grounding spot and I will forever be grateful for growing up there."

"I came from humble beginnings in Corvallis and achieved so much in my life due to the support of teachers and coaches who recognized my intelligence and talent. I want that for other shy kids who don't realize 'They have it going on!'"

"CPSF raises all of our kids up and is an amazing organization that contributes to the wellbeing of our community."

"I was inspired by the way the Foundation meets the needs of students and families that do not have enough food to eat, clothes to wear, etc."

"I want to help all children to get a good education."

"Education is an investment in the future."

"(CPSF) is on the ground meeting needs as a community support organization."

"I believe that the Corvallis Public School Foundation is number one in my opinion."

"I'm a former educator and understand how much access to healthy food is necessary for learning and development."

"We love to support the local community and students!"

"As a retired Corvallis teacher, I am honored to help our families."

These gifts are a meaningful way to honor or memorialize a loved one, or recognize a favorite educator, while providing support for our schools.
